Education

California State University, Fullerton Aug. 2024 - May 2028
Bachelor of Science in Computer Science *Current GPA: 3.85*

Coursework

Courses: Object-Oriented Programming, Data Structures, Algorithms, Discrete Math, Linear Algebra, Calculus, Physics, Statistics

Skills

Languages: C++, C#, Python, Lua/Luau, Ruby
Tools: Git/GitHub, Unix Shell, VS Code, Unity, Roblox Studio, Gamemaker, Jira

Projects

Minesweeper Project | *C++, raylib, CMake, Git/Github, Unix Shell, VS Code* May 2026 - Present
- 2D Puzzle Game
- Developed solo, produced 100% of project alone
- Designed systems and architecture, simplifying communication within code
- Debugged various problems that occured during development
- Actively developing, designing, and brainstorming features and mechanics

PomoDori | *C#, Unity, Git/Github, Unix Shell, VS Code* Apr. 2026
- Team project for FullyHacks 2026
- Developed with 2 others a gamified Pomodoro study app within 24 hours
- Brainstormed ideas quickly with other team members and compromised with features and mechanics
- Created main mechanics, and helped debug and de-clutter codebase
- Delivered working MVP to itch.io within the given time frame

ChromaCrush | *GML, Gamemaker, Git/Github, VS Code, Discord* Sep. 2025 - Dec. 2025
- 2D Arcade Shoot-em up
- Cooperated with 3 other team members, integrating art assets and programming mechanics
- Handled main calculations for bullet trajectory functions, as well as other general bullet spawnings
- Shared and communicated with team and team lead via weekly meetings, planning mechanics and enemies

Wave Rave | *C#, Unity, Git/Github, VS Code, Discord, Notion, Jira* Sep. 2024 - May 2025
- 2D Rhythm Game
- Worked in C# to program essential systems, such as input timing system and song mapping
- Attended consistent meetings with team members and programmers to plan and acquire tasks
- Communicated with artists and programmers to detail and design the game and mechanics

Mark's Towers of Peril | *Luau, Roblox Studio, Discord* Mar. 2021 - Sep. 2022
- 3D Platformer Game
- Engineered the base systems as well as and additional mechanics of the game, laying the foundation
- Programmed a development kit to allow public contributions to be easily added to the game
- Recruited and lead a development team of 4 others to develop and maintain the game
- Designed and brainstormed with team to develop several levels and environments to work on
- Grew and fostered a community of active members, gaining 6 million total plays

Extracurricular

Video Game Development Club at CSUF | *General Officer* Jan. 2024 – Present
- Help welcome new and concurrent members, fostering an inclusive environment
- Collaborating with other officers to plan events and club meetings
- Maintaining the club's Discord, helping and responding to members and moderating the server
- Advise and guide members working on semester game projects for the club
